METAL JIG

TUNNEL JIG

Jig compatto, ottimo nel lancio, molto invitante grazie anche all'innovativa concezione evidenziata dal ventre forato. Esca che ha dato ottimi risultati in mare con predatori anche di grossa taglia.

The Tunnel Jig is compact for an easy and long casting, very tempting, thanks to the innovative design of its belly pierced. This lure has given good results in catching salt water predators of large size.

SLIDE JIG

Questo jig ha un movimento durante il recupero oscillante e una sfarfallio molto accentuato in caduta. Può essere utilizzato sia nel classico vertical che nel castin jig perfetto nelle piccole dimensioni in acqua dolce e ottimo per i piccoli predatori di mare.

This jig has a swinging motion when retrieved and a very wide fall shaker. It can be used both in the classic "vertical jig" or "Casting Jig". Its tiny size also makes it perfect for any fresh water use and great for all "small size" predators of the sea.

KAYO JIG

Piccolo jig adatto in mare sia a light jigging che a casting e spinning dalla barca e da terra. Molto efficace sui predatori di mare (Sugarelli Agerti/Lanzardi Palamite e Tombarelli). Alcune colorazioni sono rivestite di un laser tape particolarmente riflettente.

This small jig is suitable for any kind of saltwater use. It can be used for "Light jigging", using spinning or casting tackle, and you can fish it from the boat or from the shoreline. Very effective on predators of the sea (mackerel / mackerel skipjack and Frigate). Some colors are coated with a laser tape that is particularly reflective and shining.

PERKO JIG

Questo jig durante il recupero ha un movimento oscillante mentre in caduta ha uno sfarfallio molto accentuato. Può essere utilizzato sia nel classico vertical che nel casting jig perfetto anche in acqua dolce per persico reale e luccio perca, ottimo per i piccoli predatori di mare.

This jig has a oscillating motion if retrieved regularly or while in the fall, has a very pronounced flicker. It can be used in the classic vertical jig or "casting jig". It's perfect also in fresh water looking for perch, zander, aspigo and pike. It's great also for catching small predators of the sea.
